

Eddaform, LLC Capabilities Statement

Capabilities Statement:

Eddaform, LLC Machine Products is your trusted partner for precision machining and metal turning, boasting over 20 years of industry expertise. From single-piece prototypes to multi-million-part orders, we excel in manufacturing precision metal and plastic products from a diverse range of materials. Our capabilities include the production of Mounted Points, Knurled Pins, Pins, Slugs, Rivets, Threaded Barrels, Spacers and Washers, Knurled and Threaded Mandrels, Various Specialized, and Plating.

Materials Expertise:

- Mild Steel, 12L14, 303 Stainless, 416 Stainless, Aluminum, Brass, Stress Proof, Steel Tubing, Teflon, PTFE, Delrin AF, Ultima 1000, Nylon 6-6, UHMW PE, Acetal Plastics, and more.

Precision Machining:

- Specializing in precision metal and plastic turning.
- Equipped to handle a wide range of materials and order sizes.
- Utilizing 50 Brown & Sharpe Screw Machines for high-speed, precision manufacturing.
- Operating CNC and Swiss-style precision lathes.

Quality Assurance:

- Inspection according to print, focusing on all dimensions
- Providing CERT with heat treating or plating specs.
- Adapting inspection procedures based on as-needed requirements.
- Sourcing experienced partners for nondestructive testing as per specific part specifications.

Eddaform, LLC Machine Products is committed to delivering exceptional quality, precision, and efficiency in every order.
